

Eoin Kenny

FINAL-YEAR COMPUTER SCIENCE STUDENT · SAP

Balbriggan, Co. Dublin | eoinkenny28@icloud.com | [linkedin.com/in/eoink28](https://www.linkedin.com/in/eoink28) | github.com/eoink28

PROFILE

Final-year BSc (Hons) Computer Science (Infrastructure) student at TU Dublin, currently working part-time at SAP after a six-month internship on the Cloud Platform Integration team within SAP BTP. Handled live customer cases including priority and critical-care escalations, project-managed the 2026 Development Intern Project end to end, and now lead AI enablement for a 15-20 person engineering team.

TECHNICAL SKILLS

Languages: Python, Java, C, SQL, TypeScript / JavaScript, Swift

Web and frameworks: React, Next.js, Node.js, SwiftUI, HTML/CSS

Infrastructure and data: Linux, Cisco networking (CCNAv7), PostgreSQL / PostGIS

Platforms and tools: SAP BTP, SAP Cloud Platform Integration (CPI), Git and GitHub, VS Code

EXPERIENCE

AI Enablement Associate (part-time) | SAP, Dublin | *September 2026 - present*

- Retained after the internship at 16 hours per week to raise AI capability across a 15-20 person team split into sub-teams.
- Run a weekly AI briefing on internal SAP developments, industry news and a tool of the week, measuring uplift with a baseline and end-of-period skills survey.
- Provide ad hoc support to colleagues adopting AI tooling into their day-to-day work.

Software Support Engineering Intern | SAP, Dublin | *February 2026 - September 2026*

- Worked live customer cases on SAP Cloud Platform Integration (CPI) within the wider BTP organisation, including priority and critical-care customer situations under escalation.
- Project-managed the 2026 Development Intern Project, planning delivery across three waves of sprints to a mid-August deadline and producing the sprint plans, feature roadmap and delivery documentation.
- Ran the user research behind ISE, an internal support engineering platform: interviewed senior technical managers, built affinity maps and POV boards, and analysed quiz data into a knowledge-gap narrative used in stakeholder presentations.

Senior Barista, Sales Assistant and General IT | Elmgrove Flower Farm, Balbriggan | *June 2021 - January 2026*

- Progressed to senior barista over five years, training and supervising new staff through busy service periods.
- Acted as first-line IT support for the business, covering point-of-sale systems, devices, connectivity and day-to-day troubleshooting.

Pro Shop Sales Assistant | Balbriggan Golf Club | *May 2025 - September 2025*

- Handled pro-shop sales, member queries and tee-sheet administration, reporting to the Head Professional.

Sales Associate | Bo Baine | *May 2023 - September 2023*

- Customer-facing retail sales in a fast-turnover seasonal environment.

EDUCATION

BSc (Hons) Computer Science (Infrastructure), TU857 | Technological University Dublin | *2023 - 2027*

Leaving Certificate - 484 points | Ardgillan Community College, Balbriggan | *2023*

PROJECTS

LUGH - Distributed CubeSat Ground Station Network | Personal project / 2026 - 2027 (*in progress*)

- Building a distributed network of Raspberry Pi ground stations for CubeSat telemetry over LoRa radio, with MQTT/Redis messaging between nodes and a FastAPI backend serving a React mission control UI.

EUDR Compliance Platform | Client project - Wood Concepts / 2026

- Supplier onboarding and due-diligence document collection portal built against EU Deforestation Regulation requirements.
- Next.js 14 and TypeScript front end, PostgreSQL/PostGIS with Prisma, iron-session auth and zod validation, hosted in the EU for GDPR and EUDR data residency.

RoundReviewer - iOS Golf Analytics App | Personal project / 2026

- Native iOS app for golf round tracking and shot analytics, built in SwiftUI with SwiftData persistence; consumes Theia's hole polygons to determine the surface each shot finished on.

Theia - Computer Vision Engine for Golf Hole Mapping | RoundReviewer / 2026

- Segmentation engine that takes a satellite image of a golf hole and returns labelled GPS polygons for green, bunkers, water and fairway.
- Runs Meta's SAM 2.1-base locally on Apple Silicon via MPS behind a FastAPI service.

LEADERSHIP AND INTERESTS

- Team Principal, F1 in Schools - led a student team through design, build and competition.
- Development Project Manager - led a team of developers to deliver a project marked as critical by leadership.
- Patrol Leader, 34th/161st Balbriggan Scouts.
- Golf (member, Balbriggan Golf Club).
- Long-standing interest in software development, space systems, quantum computing and cybersecurity.
